

2008 Brute Horsepower Shootout

POST COMPETITION INSPECTION:

First and second place finishers in each class may be inspected to verify displacement and compliance with all other contest rules. The Contest Judge will make a determination whether to perform such inspection.

Any entrant found to be in violation of the rules for the class in which they are entered will be disqualified from the competition and will not be permitted to compete in the next year's competition. All prizes and awards will be forfeited.

PROTEST PROCEDURE:

Any entry may be protested by any entrant in the same class of competition. The protest must be officially filed verbally or in writing to the Contest Judge. At that time, a protest fee of **\$500.00 cash** must be posted to have an entry inspected for contest rule violations. The protested entrant or their representative must disassemble the engine for inspection. Refusal to disassemble a protested engine will be cause for disqualification. If the entry is found to be legal, the protested entrant will be awarded the \$500.00 protest fee. If the motorcycle is found to be in violation of contest rules, it will be disqualified from competition and the \$500.00 returned to the entrant filing the protest. All expenses incurred in the inspection are the responsibility of the protested entrant.
